

Theoretical Aspects of Hadron Spectroscopy and Phenomenology

Thursday 17 December 2020

Session 6 (15:55-18:00)

-Conveners: David Rodriguez Entem

time	[id] title	presenter
15:55	[37] Study of the X(6900) and evaluation of systematic uncertainties in the IAM	OLLER, José Antonio
16:20	[32] Effective field theory for double heavy baryons	Prof. SOTO, Joan
16:45	[35] Isospin violation in the decays of vector charmonia into $\Lambda \overline{\Sigma}^0 + \text{c.c.}$	MANGONI, Alessio
17:10	[59] Review on the spectroscopy program of the Hadron Spectrum collaboration	Prof. RYAN, Sinéad
17:35	[58] HASP meeting
