

Visit plan - Wednesday 10th July

- 14:30 Meeting point (ICE entrance)
- 15:00 Bus departure (be sharp please!)
- 17:45 Arrival to the observatory
- We will organize in 2 groups to:
 - General overview presentation
 - Outside guided tour
 - TJO telescope visit (0.8m, largest telescope in Catalonia!)
 - TFRM telescope visit
- 20:00 Dinner at the observatory: stand-up catering we will bring from UAB
- 22:00 Real time view of TJO operations (robotic telescope)
 - Follow-up a transit of the TESS candidate **TOI-1807** (check the properties!) (weather permitting!)
 - If successful, we will analyse the observations on Thursday afternoon (we also have a back-up plan)
- 23:00-24:00 aprox. Departure from the Observatory
- 02:00-03:00 aprox. Arrival to "la Vila" + 1 stop in Barcelona (to be agreed)

Tips

The observatory is on top of the mountain (1570 m). Bring with you:

- some warm clothes (temperature can drop to 10-15°C in the evening)
- if you have, sunscreen, cap, sunglasses...
- water and some snacks (the excursion is long)
