Science Cases related to Clusters of Galaxies

Friday, 19 April 2024 09:00 (15)

The observations of clusters of galaxies with Euclid is fundamental to achieve the major goals of this mission. I will give an overview of the major aims of the Science Working Group „Clusters of Galaxies“. Both I will present science cases directly related to the major goals of Euclid and projects/ideas related to legacy science.

Presenter(s) : Dr DANNERBAUER, Helmut (Instituto de Astrofísica de Canarias (IAC))

Session Classification : Invited talks
