

Euclid Spain Meeting 2024

Thursday 18 April 2024

Galaxy clustering - Alberto Lobo (15:25-16:05)

time	[id] title	presenter
15:25	[18] A bayesian methodology for primordial power spectrum non-parametric reconstructions from galaxy clustering	MARTINEZ-SOMONTE, Guillermo
15:35	[26] Robust galaxy clustering with Euclid: the challenge of the ELG-halo connection	AVILA, Santiago
15:45	[6] Correcting for observational systematics in galaxy clustering: from DES to Euclid	RODRÍGUEZ MONROY, Martín
15:55	[45] Cosmological exploitation of Angular Redshift Fluctuations with Euclid Observables	HERNÁNDEZ MONTEAGUDO, Carlos
