

Strong and Electroweak Matter Conference (SEWM 2018)

Tuesday 26 June 2018

Parallel: V - Gamma (15:00-16:30)

-Conveners: Paul Romatschke

time	[id] title	presenter
15:00	[16] How does relativistic kinetic theory remember about initial conditions?	Dr HELLER, Michal
15:30	[24] Fluctuations and long time tails in fluid dynamics	Prof. SCHAEFER, Thomas
16:00	[60] Relativistic magneto-hydrodynamics	Prof. KOVTUN, Pavel

Parallel: V - Gamma (17:00-18:30)

-Conveners: David Mateos

time	[id] title	presenter
17:00	[53] Renormalisation of non-perturbative calculations in scalar theories	Prof. CARRINGTON, Margaret
17:30	[66] Semiholography for heavy ion collisions: recent developments	Dr PREIS, Florian
18:00	[35] Excitation and saturation of the spinodal instability	Dr ATTEMS, maximilian
